Payroll Management Made Easy

TRAVERSE® Payroll keeps you current with government reporting requirements while giving you total flexibility. In addition to printing checks, you need to maintain detailed records with clear audit trails, track sick and vacation days, and keep up to date with tax law changes. TRAVERSE Payroll can handle it all. It also enables you to analyze payroll expenses and employee productivity as well as control costs and review expense distribution.

With this module, you can produce detailed reports to help you plan and generate a budget. Manage your expenses efficiently by tracking FUTA, SUI, Medicare, and Social Security, as well as earnings by department. You decide whether to calculate scheduled deductions as a fixed amount, a percentage of gross pay, an hourly rate, or a declining balance. You can easily produce W-2s printed on forms, or stored on magnetic media to meet federal requirements.

You'll have the flexibility to set up your payroll according to your terms. Define pay codes for regular, overtime, double-time, sick, vacation time, or any other payment method for hourly employees. Unlimited user-definable deductions are allowed per company, as well as taxable and/or nontaxable earnings codes and an option for fixed federal, state, and local withholdings.

You can edit manual checks or system calculated checks prior to printing.
